

PRECOURSES, 5.12.2019

PROF. RABIH CHAOUI. FETAL CARDIAC EXAMINATION FOR ADVANCED EXAMINERS

09:00–13:00	1. Normal anatomy of the 4chamber view and the great vessels
	2. Use of 2D and color Doppler for the examination of the fetal heart
	3. Typical anomalies of the four-chamber view as hypoplastic left heart syndrome, Ebstein, AV-septal defect, dextrocardia
	4. Typical anomalies of the great vessels including Fallot, Transposition, Pulmonary atresia
	5. Anomalies of the aortic arch
	6. Anatomy and pathologies of the venous system

DR. HAN ZHEN. ANALYSIS OF COMPLEX CLINICAL CASES DURING THE FIRST, SECOND AND THIRD TRIMESTER. MODERN APPROACHES IN PERINATAL DIAGNOSTICS

14:00–17:30	1. The normal development of the fetus
	2. Echo anatomy in the 2 nd and 3 rd trimesters: features and errors of interpretation of the results
	3. Complex clinical cases in the early stages of pregnancy, common mistakes and misconceptions
	4. Algorithm of ultrasound examination for identified malformations in the second trimester. Rare clinical cases
	5. The main emphasis in ultrasound studies in the third trimester of pregnancy

FIRST DAY, 6.12.2019

08:00-09:00	Registration, welcome coffee, exhibition	
-------------	--	--

09:00-09:15	Welcome speech	
-------------	----------------	--

1 Session & Discussion

09:15-09:45	Lecture	Prof. Rabih Chaoui , Head of the Center of Prenatal Diagnosis and Human Genetics (Berlin/Germany)	Overriding Aorta: more than Fallot-Tetralogy
09:45-10:15	Lecture	Prof. M. Słodki , MD, PhD, Associate Professor, Rector of The State University of Applied Sciences in Plock Dept of Prenatal Cardiology, Polish Mother's Memorial Hospital Research Institute (Lodz/Poland)	Congenital Heart Defects Classification from fetal cardiology point of view
10:15-10:45	Lecture	Andrii Kurkevych , MD, PhD., Head of Scientific and Diagnostic Department of Ukrainian Children's Cardiac Center (Kyiv/Ukraine)	Ductal-dependent Heart Defects: Prenatal Diagnosis and Perinatal Management
10:45-11:10	Discussion		Perinatal management for Critical Congenital Heart Diseases

2 Session

11:10-11:40	Lecture	Prof. Rabih Chaoui , Head of the Center of Prenatal Diagnosis and Human Genetics (Berlin/Germany)	Spina bifida detection in 1 st and 2 nd trimester
11:40-12:10	Lecture	Prof. Nella Volyk , Associate professor of the radiology department of the Shupyk National Medical Academy of Postgraduate Education (Kyiv/Ukraine)	Echo anatomy of the fetal facial structures in the first trimester, echomarkers of facial malformations
12:10-13:10	Special lecture	Prof. Inessa Safonova , MD, Professor of the Department of Radiation Diagnostics, Kharkov Medical Academy of Postgraduate Education, UZschool mentor, chief editor of ObgynUS & Fetal Medicine, blogger (Kharkiv/Ukraine)	Ultrasound of the uterine scar after cesarean section: before & during pregnancy
		Prof. Inessa Safonova , MD (Kharkiv/Ukraine) Dr. Artem Chernov , PhD (Kyiv/Ukraine)	Ultrasound scan of CS uterine scan: when and for whom? Let's sort things out

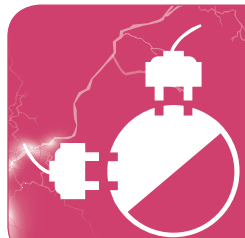

13:10-14:10	Lunch	
-------------	-------	--

14:10-15:40	Sponsor Satellite SYNEVO	Hari Radhakrishnan , PhD Chief Business Development Officer, NIPD Genetics	VERACITY and VERAGene: New Generation NIPTs
-------------	--------------------------	---	--

3 Session & Discussion

15:40-16:10	Lecture	Dr. Olga Eremina , M.D, Ph.D, Ob&gyn, National Medical Research Center for Obstetrics, Gynecology and Perinatology (Moscow/Russia)	A modern approach to the identification of endometrial pathology using ultrasonic
16:10-16:40	Lecture	Prof. Manuela Ludovisi , M.D, Ph.D, Dept of Women and Child Health, Women Health Area, Division of Gynecologic Oncology, University Cattolica del sacro Cuore (Rome/Italy)	Ovarian masses in pregnancy
16:40-17:10	Lecture	Dr. Olga Bakay , M.D, Ph.D, Radiologist, National Cancer Institute (Kyiv/Ukraine)	Cervical Cancer: How Can Ultrasound Help Diagnose? When is MRI and CT necessary?
17:10-17:40	Lecture	Dr. Lilith Hovsepian , M.D, Ph.D, Ob&gyn, Gynecological oncology tumor board member, expert specialist of ultrasound diagnosis, Nairi and Erebus Medical Centers (Erevan/Armenia)	Difficult clinical cases. Let's make a diagnosis
17:40-18:10	Discussion		

18:20-19:00	Closing conference day	
-------------	------------------------	--

СХІДНОЄВРОПЕЙСЬКІ ЗУСТРІЧІ ПРОФЕСІОНАЛІВ
УЛЬТРАЗВУК В АКУШЕРСТВІ ТА ГІНЕКОЛОГІЇ

SECOND DAY, 7.12.2019

08:00-09:00	Registration, welcome coffee, exhibition	
-------------	--	--

4 Session & Discussion

9:00-10:00	Special lecture (online)	Dr. Simon Meagher , Medical Director of Monash Ultrasound for Women, Honorary Lecturer Monash University (Melbourne/Australia)	Screening for fetal malformation 11–14 weeks: Basics and Beyond
10:00-10:40	Sponsor Lecture CANON	Dr. Michael Brusilov , M.D., Head of Medical Centers specializing in the diagnosis of intrauterine development anomalies and in pregnancy supervising, at the Inchinta medical center & The Fetus Sound medical center (Tel Aviv/Israel)	The technique of anatomical scan in the different stages of pregnancy
10:40-11:40	Special lecture	Prof. Liesbeth Lewi , Obstetrician-Gynecologist at University Hospitals (Leuven/Belgium)	Placental anatomy and specific complications in monochorionic twins
11:40-12:00	Lecture	Dr. Mykola Veropotvelyan , Doctor of Medical Sciences, Honored Doctor of Ukraine, General Director of the Multiregional centre of Medical Genetics and Prenatal Diagnostics named after P. M. Veropotvelyan (Kryvyj Rih/Ukraine)	Twin anemia polycythemia sequence: diagnosis, management, outcome, clinical case and word registry data
12:00-12:30	Lecture	Prof. Liesbeth Lewi , Obstetrician-Gynecologist at University Hospitals (Leuven/Belgium)	Rare cases multiples

12:30-13:30	Lunch	
-------------	-------	--

13:30-14:10	Special lecture	Dr. Michael Brusilov , M.D., Head of Medical Centers specializing in the diagnosis of intrauterine development anomalies and in pregnancy supervising, at the Inchinta medical center & The Fetus Sound medical center (Tel Aviv/Israel)	Skeletal dysplasia: lethal, non-lethal diagnosis, differential diagnosis, genetics, family counseling
-------------	-----------------	---	---

5 Session

14:10-14:40	Lecture	Dr. Ruben Heremans , MD, PhD candidate, Research Fellow, Department of Development and Regeneration, Resident in Obstetrics and Gynecology, University Hospitals KU (Leuven/Belgium)	How to manage abnormal findings of the endometrium in asymptomatic patients
14:40-15:10	Lecture	Prof. Igal Wolman , Associated Professor of the Tel Aviv University, Senior consultant in the Tel Aviv Medical Center (Tel Aviv/Israel)	Ultrasonographic evaluation of deep infiltrating endometriosis
15:10-15:40	Lecture	Prof. Manuela Ludovisi , M.D, Ph.D, Dept of Women and Child Health, Women Health Area, Division of Gynecologic Oncology, University Cattolica del sacro Cuore (Rome/Italy)	The evaluation of uterine malformations
15:40-16:10	Lecture	Prof. Nella Volyk , Associate professor of the radiology department of the Shupyk National Medical Academy of Postgraduate Education (Kyiv/Ukraine)	Chronic inflammatory diseases of the female pelvic organs: is ultrasound diagnosis feasible? Differential diagnosis with non-gynecological pathology
16:10-16:40	Lecture	Prof. Igal Wolman , Associated Professor of the Tel Aviv University, Senior consultant in the Tel Aviv Medical Center (Tel Aviv/Israel)	Exem a new technique for the evaluation of tubal patency

6 Session

16:40-17:40	Clinical case	Olena Susidko , Director and chief doctor of the Medical Center of Dr. Nikolaev (Dnipro, Ukraine), director of the ukrainian branch of the International Jan Donald School of Medical Ultrasound, graduate student of the ObGyn and perinatology department of NMAPO named after P. Shupyk (Kyiv/Ukraine)	Phenotypic manifestation of rare chromosomal pathology
	Clinical case	Veronika Tomasheva , MD. Maternity hospital of Minsk region (Minsk, Belarus)	Prune belly syndrome (case)
	Clinical case	Alexander Teleguz , sonologist of Sarny District Central Hospital (Sarny/Ukraine)	Fetal abdominal cystic lesions: particular aspects of prenatal diagnostic and postnatal observation
	Clinical case	Violeta Martynkovska , Ph.D, Obstetrician-gynecologist, Specialist in ultrasound diagnostics, Medical Center "VIOLAMED" (Vinnytsia/Ukraine)	Amniotic band syndrome: a case of sonographic diagnosis mild form in the third trimester of pregnancy
	Clinical case	Igor Korchak , Director general of medical centre "Your Health". Obstetrician-gynecologist in Rivne Regional Clinical Diagnostic Centre named after V. Polishchuk. Specialist in ultrasound diagnostics. Nina Reshota , Obstetrician-gynecologist in Rivne Regional Clinical Diagnostic Centre named after V. Polishchuk. Specialist in ultrasound diagnostics (Rivne/Ukraine)	Ultrasound Diagnostic Of Visually Unchanged Fallopian Tubes
